

SELIM AHMED

System Analyst & Software Engineer | 10+ Years Enterprise .NET Architect

Dhaka, Bangladesh | +880 1711 148432 | aronno1920@hotmail.com

linkedin.com/in/aronno1920 | github.com/Aronno1920

PROFESSIONAL SUMMARY

Senior System Analyst and Software Engineer with 10+ years of experience delivering enterprise-scale .NET solutions across the full software development life cycle. Led end-to-end development of 10+ ERP, HR, KPI, and document management systems serving 10,000+ users across multiple organizations. Expert in system architecture, business analysis, database design, and team leadership, with a proven track record of reducing operational costs by 30-50% through automation and process optimization. Currently expanding expertise in AI/ML, agentic programming, custom AI model development, and Retrieval-Augmented Generation (RAG) systems.

KEY ACHIEVEMENTS

- Led development of 10+ enterprise systems from concept to deployment
- Reduced document processing time by 40% through E-Document Tracking System
- Managed cross-functional teams of 5-10 developers across multiple projects
- Architected ERP system processing 10,000+ monthly transactions for Orion Tea Company
- Deployed mobile applications with 5,000+ active users
- Implemented KPI systems improving employee performance tracking by 35%
- Reduced manual data entry errors by 60% through automated workflows

CORE COMPETENCIES

System Analysis | Business Analysis | Requirements Gathering | ERP Implementation | Software Architecture | Full SDLC | Database Design | Team Leadership | API Development | Agile Methodologies | Stakeholder Management | Technical Documentation | Data Migration | Performance Optimization | RESTful APIs

TECHNICAL SKILLS

- Languages & Frameworks: C#, Java, Python (Intermediate), ASP.NET, ASP.NET MVC, .NET Core, HTML5, CSS3, JavaScript, Xamarin Forms
- Databases: Microsoft SQL Server (2008-2019), Oracle Database 19g, MySQL, PostgreSQL, MongoDB, Redis, SQL Server Management Studio
- Reporting & Business Tools: Crystal Reports, Microsoft BI, RPA, Power BI
- Web Services & API: Web Service Integration, RESTful API Development, SOAP
- Development Tools: Visual Studio, Android Studio, VS Code, SQL Server Management Studio, XAMPP, WordPress, Git, GitHub
- Virtualization & Cloud: VMware, VirtualBox, Hyper-V, Windows Server 2019, CentOS 7, Ubuntu
- Operating Systems: Windows 10/11, Windows Server 2012/2016/2019, Linux (CentOS, Ubuntu)
- Security: Web Security Fundamentals, ESET Endpoint Security, Cyber Security Awareness

PROFESSIONAL EXPERIENCE

System Analyst | Orion Group | Dhaka, Bangladesh

November 2023 – Present

- Lead development of 5+ enterprise modules (Organogram, Circular, Question Bank, Exam System) serving 1,500+ employees across all departments
- Architect and maintain Employee KPI and Assessment System, improving performance tracking efficiency by 35% and reducing manual review time by 50%
- Design and support E-Document Tracking System serving 200+ users; reduced document processing time by 40% through automated workflows and version control

- Conduct comprehensive business analysis and requirements gathering for enterprise-wide initiatives, translating business needs into technical solutions
- Perform research and development on emerging technologies and security policies, implementing best practices for data protection
- Mentor junior developers and conduct code reviews to maintain quality standards

Analyst Programmer | Logic Infotech Ltd | Dhaka, Bangladesh

August 2022 – October 2023

- Engineered Dynamic ERP system for ABFL (Aftab Bahumukhi Farms Limited) processing 10,000+ monthly transactions across finance, inventory, and Production modules
- Delivered and maintained Document Management System handling 50,000+ documents with robust search, version control, and access management capabilities
- Collaborated with stakeholders to gather requirements and deliver solutions ahead of schedule

Senior Software Engineer | Orion Group | Dhaka, Bangladesh

January 2015 – July 2022

- Led software team of 5-8 developers as project lead across 15+ enterprise systems
- Designed and developed Orion Scholars Android app and admin panel serving 800+ scholarship recipients; reduced manual processing time by 60% through automated document verification and notification system
- Architected Orion Online Exam platform supporting 1,000+ concurrent users with automated scoring and real-time result generation
- Implemented ERP system for Orion Tea Company Ltd, integrating finance, inventory, and production modules; reduced operational costs by 30%
- Engineered Vehicle Management System tracking 100+ fleet vehicles with real-time maintenance scheduling and fuel consumption monitoring
- Developed PMH (Prescription Mind to Heart) Android application with 3,000+ downloads on Google Play Store
- Delivered Material Management System and Product Management System, streamlining procurement and warehouse operations
- Architected Employee Appraisal System automating annual performance reviews for 1,200+ employees
- Built Restaurant POS & Online Reporting System processing 500+ daily transactions
- Delivered projects using ASP.NET, WPF, SQL Server 2014, Java, and native Android
- Conducted business analysis and requirements gathering for organization-wide software initiatives

Software Engineer | Nitol Niloy Group | Dhaka, Bangladesh

December 2013 – December 2014

- Developed Niloy Hero Automation system for spare parts management and workshop operations, reducing inventory discrepancies by 45%
- Built Fixed Asset Register and Inventory system tracking \$2M+ in company assets
- Delivered projects using ASP.NET and SQL Server 2008 R2, meeting all deadlines

Programmer | Flora Systems Limited | Dhaka, Bangladesh

March 2012 – December 2013

- Developed Flora EFTN (Electronic Funds Transfer Network) banking system processing 1,000+ daily transactions with 99.9% uptime
- Built projects using ASP.NET and SQL Server, following SDLC best practices

PROFESSIONAL PROJECTS

- **SAP MM Module Implementation:** Core team member responsible for Business Blueprint (BBP), system requirement, and user training for enterprise-wide Materials Management deployment
- **Online Exam System:** In-house ASP.NET (C#) system supporting HR-administered online exams for 200+ concurrent users; automated scoring and reporting reduced processing time by 50%
- **Integrated ERP System for Orion Tea:** Vendor-developed Django system; led implementation and coordination with management and staff; processed 10,000+ monthly transactions
- **Material and Product Management System:** Vendor-developed Oracle APEX system covering procurement planning, tendering, warehouse management, QC, production, and finished product QA; reduced procurement cycle time by 25%
- **E-Document Tracking System:** In-house ASP.NET (C#) system; 40% reduction in document retrieval time

- **Restaurant POS System:** C# / SQL Server application for restaurant inventory and sales management; 500+ daily transactions processed
- **HR Management System:** ASP.NET system for employee document storage, appraisal, and attendance tracking; served 1,200+ employees
- **Fund Requisition System:** ASP.NET (C#) system supporting bill and advance-bill processing; reduced approval time by 50%
- **PMH (Prescription Mind to Heart):** Android (Java) application with 3,000+ downloads

PERSONAL PROJECTS

- **QuickErp:** Enterprise-grade ASP.NET (C#) ERP platform for medium/large organizations, featuring finance, inventory, manufacturing, CRM, HR, and reporting modules
- **Vehicle Management System:** ASP.NET (C#) application for vehicle fleet management, maintenance scheduling, fuel tracking, and trip monitoring
- **School Management System:** ASP.NET (C#) solution for student enrollment, attendance, examinations, fee management, and academic administration

EDUCATION

Postgraduate Diploma in Project Management Academy of Business Professionals (ABP), Dhaka, Bangladesh	2020 – 2021
Bachelor of Science in Computer Science and Engineering The University of Comilla, Bangladesh CGPA: 3.67/4.00	2008 – 2012
Diploma in Computer Engineering SAIC Institute of Management and Technology (SIMT); Bangladesh Technical Education Board, Gazipur CGPA: 3.17/4.00	2004 – 2008

PROFESSIONAL TRAINING & CERTIFICATIONS

- AI Engineering Bootcamp for Programmers — 6 Months, Ostad
- Android Apps Development with Java — 3 Months, BASIS Institute of Technology & Management (BITM)
- Social Apps Development (Android) — 3 Months, Willow Granner
- C# and ASP.NET Track — 180 Hours, Bangladesh Association of Software & Information Services (BASIS)
- Cyber Security Awareness with ESET Endpoint Security — 2 Weeks, Orion Group
